GENERAL INFORMATION

1. Background and Purpose

The California Prison Health Care Receivership Corporation (CPR) is a non-profit organization created to house the activities of the federal Receiver and the California Prison Health Care Services. United States District Court Judge Helton E. Henderson established the Receivership as the result of a 2001 class action lawsuit (Plata v. Schwarzenegger) against the State of California over the quality of medical care in the State's prison system. All activities of the Receivership have one common mission: to raise to constitutionally mandated standards the level of medical care delivered to adult inmate-patients incarcerated in California prisons.

On June 6, 2008, federal Receiver, J. Clark Kelso, issued a plan called "Achieving a Constitutional Level of Medical Care in California's Prisons" (Plan), available at http://www.cphcs.ca.gov/docs/court/ReceiverTurnaroundPlan_060608.pdf. This Plan calls for numerous actions to be performed over the next three-to-five years by California Prison Health Care Services (CPHCS) program to meet constitutionally acceptable and sustainable levels of inmate-patient medical care.

The Receivership has adopted six goals and their associated objectives and actions: 1) ensure timely access to health care services; 2) establish a prison medical program addressing the full continuum of health care services; 3) recruit, train, and retain a professional quality medical workforce; 4) implement a quality assurance and continuous improvement program; 5) establish medical support infrastructure; and 6) provide for necessary clinical, administrative and housing facilities.

California Prison Health Care Services (CPHCS) is requesting offers from qualified firms to perform a "black box" wireless security penetration assessment (i.e., pen test) against specific target wireless networks. Contractor shall provide a detailed written report of the attack methodology and findings to the CPHCS.

Offerors shall prove prior experience in performing a wireless security penetration assessment (i.e., Pen Test).

At the discretion of CPHCS, the ensuing agreement may be augmented for unanticipated tasks/deliverables up to, but not to exceed, a reasonable percentage of the total value of the contract.

5. Review of Offers for Award

Responses to this RFO will first be reviewed for responsiveness to the requirements of Exhibits A and B. If a response is missing required information in either Exhibit it may be deemed non responsive. Further review is subject to CPHCS' discretion.

Offers will initially be scored based solely upon the information presented in the written offer. The top scoring Offeror(s) may, at the sole discretion of CPHCS, have their proposed consultant(s) be invited for an interview. Based upon additional information and understandings presented during the interviews, final scores will be assigned for purposes of the Best Value determination. If interviews are requested, Offeror(s) will be notified of specific dates, times, and location and which proposed consultant(s) must be present at the interview. Award of a contract resulting from this RFO against a CMAS contract will be based on a "best value" method that includes cost as a factor. Best value will be determined based on the criteria listed below.

Administrative Criteria	40%	120 points
Technical Criteria	30%	90 points
Cost	<u>30%</u>	<u>90 points</u>
Total	100%	300 points

Administrative Criteria includes:

- Descriptions of firm and team member qualifications;
- Resumes for each proposed project team member, describing the experience levels, in detail, that support the Statement of Work; and
- References for firm.

Technical Criteria includes:

- An Organization Chart, if appropriate, identifying all proposed project team members and tracking of each person to the pertinent task;
- Outlines and examples of deliverables from other projects performed by the Firm that support the Statement of Work; and
- Additional support that the Firm may bring to assist the consultant(s) in achieving success on the project.

An interview, if requested, may contribute to the overall evaluation of Administrative and Technical criteria.

Cost Criteria includes:

- Costs for each proposal will be included in the overall evaluation of best value. Following is an example of a “best value” calculation:

	<u>Offer 1</u>	<u>Offer 2</u>	<u>Offer 3</u>
Admin Score	66 pts	85 pts	95 pts
Tech Score	<u>54 pts</u>	<u>60 pts</u>	<u>64 pts</u>
<u>Total Points</u>	120	145	160
Cost	\$330,000	\$285,000	\$420,000
Calculation	<u>\$285,000</u> \$330,000	<u>\$285,000</u> \$285,000	<u>\$285,000</u> \$420,000
Cost points	.86 x 90 = 77	1.00 x 90 = 90	.68 x 90 = 61
Grand Total	120+77 = 197	145 + 90 = 235	160 + 61 = 221

In this example, the award goes to Offer 2 as the response that scored the highest points from amongst the Administrative and Technical Criteria as shown in the RFO, combined with the calculated Cost points.

CPHCS reserves the sole right to reject any and all offers, and reissue this RFO. Offeror’s response to this document, their approved CMAS Agreement including General Provisions – Information Technology (GSPD 401IT), and CPHCS Special Provision (Exhibit C) will be included as part of the ensuing Agreement. In the event the CPHCS determines that the requested services would be best served by the awarding of multiple agreements for this RFO, the CPHCS reserves the sole right to make this determination and negotiate with the Offerors having “best value” to award more than one consultant and/or Firm. The awarded Contractor(s) shall be obligated to provide services at the rate offered in the Cost Worksheet (Exhibit B), which under no circumstances may exceed their authorized CMAS rate(s).

EXHIBIT A – STATEMENT OF WORK**A. CONTRACT PURPOSE AND DESCRIPTION:**

The California Health Care Prison Services (CPHCS) is currently designing and implementing an enterprise class network that includes wireless local area networks (WLAN) in prison institutions, and administrative offices located throughout California. As part of the WLAN deployment CPHCS has developed a wireless security architecture to secure the planned 802.11 A/B/G/N wireless networks. CPHCS seeks offers from qualified firms to assess the effectiveness of our wireless security architecture by conducting a “black box” (relying on publicly available information) wireless security penetration assessment (Pen Test) against specific target wireless networks.

The objective of the ensuing agreement is to attempt to gain unauthorized access to specific target wireless networks and to establish a basic network connection to a predefined set of targets, which would prove how sensitive and critical CPHCS data and service assets could be compromised using any target wireless network as an entry point or gateway. Contractor shall provide a detailed written report of the Pen Test methodology and findings to the CPHCS within ten (10) days of completion of Pen Test activities.

B. CPHCS ROLES AND RESPONSIBILITIES:

1. CPHCS may provide cubicle or space accommodations at a CPHCS location in the greater Sacramento region and/or the greater San Francisco/Bay Area region. Accommodations may include a desk, electrical outlet, and location necessary for completion of the work of this contract.
2. CPHCS will be responsible for reviewing the deliverables as submitted in a timely manner.
3. CPHCS will help resolve and escalate issues within the organization, as necessary.
4. CPHCS shall not provide awarded Contractor access to applicable files, reports, contracts, fiscal documents, and other relevant information.
5. The State does not pay overtime rates for hours worked exceeding eight (8) hours in a day by consultants. All hours are billed at the deliverable rate agreed upon, regardless of the number of hours performed in a given day.
6. CPHCS will provide awarded Contractor and assessment team with:
 - Physical addresses of the two target sites;
 - Basic public information about the target locations;
 - Specific target 802.11 A/B/G/N wireless network access points and corresponding Service Set Identifiers (SSIDs); and
 - A CPHCS single point of contact (SPoC) for Pen Test efforts.

C. CONTRACTOR ROLES AND RESPONSIBILITIES:

1. Comply with all applicable State and Agency policies and procedures, including those enumerated in Exhibit C. By responding to this solicitation, Vendor and Vendor's consultants acknowledge the provisions of Exhibit C have been read and are agreed to;

3. Sign a Confidentiality Statement declaring that there is no conflict of financial interest with this project and agreeing to keep any and all findings confidential;

 - The report will include each step taken by the Pen Test team along with all tools used to survey and potentially exploit or compromise the specified target assets;
 - The report must be encrypted in storage and in transit at all time, and accessible to only formally authorized individuals during and after the assessment; and
 - The written report of the assessment results and findings shall include recommendations for improvement and remediation plans for any identified deficiencies.

D. ASSUMPTIONS AND CONSTRAINTS:

1. Work hours for actual Pen Test activities at each target location shall be consistent with CPHCS normal business hours, 8:00 a.m. to 5:00 p.m., Monday through Friday, except for State holidays.

Contractor must notify the State, in writing, of any changes of those personnel allowed access to State premises for the purpose of providing services under this Agreement. In addition, Contractor must recover and return any State-issued identification card provided to Contractor's employee(s) upon their departure or termination.

9. Non Eligible Alien Certification

By signing this Agreement Contractor certifies, under penalty of perjury, that Contractor, if a sole proprietor, is not a nonqualified alien as that term is defined by the United States Code (U.S.C.) Title 8, Chapter 14, Section 1621 et seq.
