EXHIBIT A STATEMENT OF WORK

A. BACKGROUND AND PURPOSE

The California Prison Health Care Receivership Corporation is a non-profit organization created to house activities of the Federal Receiver. United States District Court Judge, Thelton E. Henderson, established the Receivership as the result of a 2001 class action lawsuit (Plata v. Schwarzenegger) brought against the State of California over the quality of medical care in the State's prison system.

All activities of the Receivership have one common mission: to create a collaborative environment where custody and health care staff improve upon the quality of medical services in California prisons in order to meet constitutional standards while reducing avoidable morbidity and mortality. One aspect aimed at improving inmates' access to health care is the development of a scheduling and tracking system to properly locate patient-inmates for medical appointments.

Currently there is no system in place that efficiently and effectively is able to schedule medical appointments, and track the location of patient-inmates as a medical appointment approaches. The result is a waste of precious clinical treatment slots as large numbers of appointments are missed either because calendar conflicts develop or, more frequently, because the patient-inmate is moved without timely notification to the health care provider. The Receiver is in the process of developing a patient-inmate health care scheduling system that encompasses the medical, dental, and mental health disciplines.

CPHCS is seeking an experienced Project Manager (PM) to lead the HCSS project teams and all sub-project managers. The PM will have overall responsibility for managing and completing the HCSS project. The PM will report to the Project Management Office (PMO) Director and project sponsors.

B. CONSULTANT QUALIFICATIONS

6. DISCLOSURE

Neither the State nor any State employee will be liable to the Contractor or its staff for injuries inflicted by inmates or parolees of the State.
