## **EXHIBIT A STATEMENT OF WORK**

### **A. BACKGROUND AND PURPOSE**

The California Prison Health Care Receivership Corporation (CPR) is a non-profit organization created to house the activities of the federal Receiver and the California Prison Health Care Services. United States District Court Judge Helton E. Henderson established the Receivership as the result of a 2001 class action lawsuit (Plata v. Schwarzenegger) against the State of California over the quality of medical care in the State's prison system. All activities of the Receivership have one common mission: to raise to constitutionally mandated standards the level of medical care delivered to adult inmate-patients incarcerated in California prisons.

On June 6, 2008, federal Receiver, J. Clark Kelso, issued a plan called "Achieving a Constitutional Level of Medical Care in California's Prisons" (Plan), available at [http://www.cphcs.ca.gov/docs/court/ReceiverTurnaroundPlan\\_060608.pdf](http://www.cphcs.ca.gov/docs/court/ReceiverTurnaroundPlan_060608.pdf). This Plan calls for numerous actions to be performed over the next three-to-five years by California Prison Health Care Services (CPHCS) program to meet constitutionally acceptable and sustainable levels of inmate-patient medical care.

The Receivership has adopted six goals and their associated objectives and actions: 1) ensure timely access to health care services; 2) establish a prison medical program addressing the full continuum of health care services; 3) recruit, train, and retain a professional quality medical workforce; 4) implement a quality assurance and continuous improvement program; 5) establish medical support infrastructure; and 6) provide for necessary clinical, administrative and housing facilities.

All activities of the Receivership have one common purpose: to create a collaborative environment where custody and health care staff improve upon the quality of medical services in California prisons in order to meet constitutional standards while reducing avoidable morbidity and mortality. One aspect aimed at improving inmate patients' quality of medical services is the implementation of electronic medical records.

The growing inmate population combined with an imminent need to maintain detailed healthcare information requires a more sophisticated method of record keeping than CDCR currently employs. Adequate medical, mental health, and dental service delivery is dependent on up-to-date and accurate offender demographics, location and centralized scheduling and tracking. However, there is no single source for offender data, which exist in multiple locations and are maintained in various media. Much of the inmate data, however, is maintained in paper files, which are often incomplete and/or contain conflicting data.

The Strategic Offender Management System (SOMS) is currently under development by CDCR. The Receiver has determined that, rather than develop and implement a stand-alone inmate tracking and scheduling system for use in the medical care, mental health care, dental care, and disability access programs in the State prisons, the CPHCS will integrate the healthcare tracking and scheduling system into the inmate tracking database to be developed and implemented through the SOMS project.

The SOMS will provide an automated system to replace manual paper files, and improve and standardize adult and juvenile population management practices enterprise-wide. It will also consolidate functionality of multiple existing inmate and parole automated systems into a single integrated solution with an enterprise

database. SOMS includes both adult and youth systems. Integrating the health care tracking and scheduling system into SOMS will result in a single system that will permit access to inmate data and demographic information.

Currently, one area of the SOMS project activities includes an enterprise-wide scanning effort of all "C-Files" to convert paper records into electronic records. In addition to other SOMS scanning activities, the Receiver and CDCR have determined that the scanning of all paper-based Unit Health Records will provide considerable benefit to the Receiver's Plan.

The CPHCS seeks offers from qualified firms to provide project management services in support of the Health Information Management (HIM), Business Improvement (BI) sub-project. The HIM-BI sub-project is a significant component of the Unit Health Record Scanning (s-UHR) project and serves the broader HIM business improvement goals set by CPHCS' Allied Health Services (AHS).

The HIM-BI Project Manager (PM) will report to CPHCS' Director of AHS or designee.

- (2) For the twelve-month (12-month) period from the date he or she left state employment, no former state officer or employee may enter into an Agreement with any state agency if he or she was employed by that state agency in a policy-making position in the same general subject area as the proposed Agreement within the 12-month period prior to his or her leaving state service.

In addition to the above, the Contractor shall avoid any conflict of interest whatsoever with respect to any financial dealings, employment services, or opportunities offered to inmates or parolees. The Contractor shall not itself employ or offer to employ inmates or parolees either directly or indirectly through an affiliated company, person or business unless specifically authorized in writing by the CDCR. In addition, the Contractor shall not (either directly, or indirectly through an affiliated company, person or business) engage in financial dealings with inmates or parolees, except to the extent that such financial dealings create no actual or potential conflict of interest, are available on the same terms to the general public, and have been approved in advance in writing by the CDCR. For the purposes of this paragraph, “affiliated company, person or business” means any company, business, corporation, nonprofit corporation, partnership, limited partnership, sole proprietorship, or other person or business entity of any kind which has any ownership or control interest whatsoever in the Contractor, or which is wholly or partially owned (more than 5% ownership) or controlled (any percentage) by the Contractor or by the Contractor’s owners, officers, principals, directors and/or shareholders, either directly or indirectly. “Affiliated companies, persons or businesses” include, but are not limited to, subsidiary, parent, or sister companies or corporations, and any company, corporation, nonprofit corporation, partnership, limited partnership, sole proprietorship, or other person or business entity of any kind that is wholly or partially owned or controlled, either directly or indirectly, by the Contractor or by the Contractor’s owners, officers, principals, directors and/or shareholders.

The Contractor shall have a continuing duty to disclose to the State, in writing, all interests and activities that create an actual or potential conflict of interest in performance of the Agreement.

The Contractor shall have a continuing duty to keep the State timely and fully apprised in writing of any material changes in the Contractor's business structure and/or status. This includes any changes in business form, such as a change from sole proprietorship or partnership into a corporation or vice-versa; any changes in company ownership; any dissolution of the business; any change of the name of the business; any filing in bankruptcy; any revocation of corporate status by the Secretary of State; and any other material changes in the Contractor's business status or structure that could affect the performance of the Contractor's duties under the Agreement.

If the Contractor violates any provision of the above paragraphs, such action by the Contractor shall render this Agreement void.

Members of boards and commissions are exempt from this section if they do not receive payment other than payment for each meeting of the board or commission, payment for preparatory time and payment for per diem.
