

CALIFORNIA  
PRISON HEALTH CARE  
RECEIVERSHIP CORP.

J. Clark Kelso  
Receiver

April 23, 2008

Jerry Marcotte and Kathy Papalia

Thank you for your comment dated April 6, 2008, on the Receiver's draft strategic plan.

You are correct that the health care issues identified in the draft strategic plan are overall issues with no specific emphasis made in regards to women prisoner health issues. Given your general comments, we are taking a closer look at women's issues and establishing another area of specialized care to be presented in the upcoming revised strategic plan. Our lead physicians will be working diligently to ensure appropriate protocols are established and women's health needs are met. They will be providing a recommendation in a few months on this important matter, and we will keep your comments in mind as we review the recommendation.

Sincerely,

A handwritten signature in black ink, appearing to read 'J. Clark Kelso', with a long horizontal stroke extending to the right.

J. Clark Kelso  
Receiver
