EXHIBIT A

A. BACKGROUND AND PURPOSE

The California Prison Health Care Receivership Corporation (CPR) is a non-profit organization created to house the activities of the federal Receiver and the California Prison Health Care Services. United States District Court Judge Thelton E. Henderson established the Receivership as the result of a 2001 class action lawsuit (Plata v. Schwarzenegger) against the State of California over the quality of medical care in the State's prison system.

On June 6, 2008, federal Receiver, J. Clark Kelso, issued a plan called "Achieving a Constitutional Level of Medical Care in California's Prisons" (Plan), available at http://www.cphcs.ca.gov/docs/court/ReceiverTurnaroundPlan_060608.pdf. This Plan calls for numerous actions to be performed over the next three to five years by California Prison Health Care Services (CPHCS) program to meet constitutionally acceptable and sustainable levels of inmate-patient medical care.

All activities of the Receivership have one common purpose: to create a collaborative environment where custody and health care staff improve upon the quality of medical services in California prisons in order to meet constitutional standards while reducing avoidable morbidity and mortality. The Receiver has adopted six goals that are necessary for CDCR's health care program to rise to constitutionally acceptable and sustainable levels. The goals are: 1) ensure timely access to health care services; 2) establish a prison medical program addressing the full continuum of health care services; 3) recruit, train and retain a professional quality medical workforce; 4) implement a quality assurance and continuous improvement program; 5) establish medical support infrastructure; and 6) provide for necessary clinical, administrative and housing facilities.

The above goals encompass key aspects of CDCR's health care delivery system and the Receiver is undertaking a broad organizational change to improve its mental, dental and health care programs. One organizational strategy to improve CDCR's overall health care program is to improve medical records, radiology and laboratory services.

To support establishment of effective radiology and laboratory services, CPHCS seeks quotes for all hardware, software, and services for procurement of a General Radiology System (System) for Avenal State Prison (ASP).

Contractor agrees to be as fully responsible to the State for the acts and omissions of its subcontractors and of persons either directly or indirectly employed by any of them as it is for the acts and omissions of persons directly employed by the Contractor.
