

Community Resources

Enhanced Care Management Lead Care Manager (Lead Care Manager)

A Lead Care Manager is someone in the community who helps create a Reentry Care Plan for your needs after release. They assist with doctor visits, housing, mental health care, and other support services. Think of them as your go-to resource for health and social services.

County Behavioral Health Department

Offers mental health and substance use treatment, along with other support services.

Transition Case Management Program Benefit Worker (BW)

Enrolls you for benefits like Medi-Cal, Social Security, or Veterans Administration benefits.

Institution Resources

Pre-Release Care Coordination Team

This team works in your institution to help arrange your health care needs after release and connects you with your community Lead Care Manager.

ISUDT Behavioral Health Clinician (Complex Care Unit)

A clinician who evaluates whether you could benefit from substance use treatment after release.

ISUDT Resource Nurse

Helps plan for your release by assessing your health needs, coordinating care, and ensuring your Reentry Care Plan is in place.

Institutional Mental Health Pre-Release Coordinator (IMHPC)

If you're receiving mental health services at the institution, this clinician works with your treatment team, the Pre-Release Care Coordination Team, and community partners to ensure you continue receiving care after release.

Parole Services Associate (PSA)

Gathers information through interviews and reviews of your central file to create a reentry plan before your release. They connect you with local reentry programs and community services to support your transition.
